

Assets Management Strategy

Power Lines
- Medium Voltage
- High Voltage
- Very High Voltage

Substations
Solar Plants
Wind Turbines
Hydroelectric Dams

Inspection Work Plan

Employed Resources
- Foot Patrol
- Helicopter
- UAV

Assets Location
Work Schedule

Data Collection Procedure

Technologies
- RGB
- Infra-Red
- Ultra-Violet
- LiDAR + GNSS

Data Homogeneity
Traceability

Data Analytic Processing

Defects
- Missing Parts
- Broken Parts
- Flashed Insulators
- Loose Connections
- Corrosion
- Dirtiness
- Vegetation
- Bird Nests

Asset Quality Reporting

Assets
- Structures
- Supports
- Components
